Dear Parent/ Carer

YEAR 11 GCSE AFTER SCHOOL TUTORING

As your child is in year 11, they have their GCSE exams starting on the 5th May. I am offering students an opportunity to attend an additional revision session on a Tuesday afterschool for 45 minutes with myself. This will give the students specific maths tutoring that will support them in their upcoming Maths GCSE exams.

I am aware that this is an additional commitment for the students, however, I do feel that any additional time to focus on revision will be beneficial to the students, and all year 11 students are welcome to attend every Tuesday starting on Tuesday 22nd March from 14:30 till 15:15.

In addition to this weekly revision session, I have activated an online learning platform called mathswatch, which the students all have access to, and can also proceed with their revision online.

If you have any further questions, please feel free to contact me.

Many thanks

John Banner
